NOHO PETITION

We, the undersigned, strongly oppose more bars and restaurants in our neighborhood (NoHo) which already far exceeds allowable density as described in the Padavan Law.

We further **seek** ongoing scrutiny regarding current liquor license density on any and all further On-Premise licenses, as well as Wine & Beer licenses in NoHo. Bar, restaurant and nightlife businesses do not represent the totality of economically or socially contributing possibilities that could now, or in the future, serve the **public interest**.

We, the people who live and work in this area, and whose lives and investments are affected adversely by the noise, congestion, public drunkenness, vermin, and air pollution that restaurants and bars, as a class of business, bring to our neighborhood, hereby affix our signatures demanding (1) denial and 500 ft. rule hearings for all new and amended applications; (2) binding restrictions on "methods of operation" advised by Community Board #2 for all other State Liquor Authority Applications.

These signatures are to be considered active and binding for 12 months from December 2008.
